

Embed the Voki Avatar in PBwiki

Did you find a cool voki avatar that you want to place in your PB Wiki? You are in luck – it is a simple process! You only need the embed code and the editing screen of your wiki.

Finding the Embed Code

Once you have created the perfect avatar, you will use the embed code content on the page. This code is necessary to add the avatar as an embedded object to your wiki.

Have a Voki Account? To find the embed code when you already have a Voki account, go to My Voki: 

Then select the following options:

Choose the **Other** drop down from the Embed in: setting. Then click the **Get Code** button.

(Play on load, comments, etc.)

1 Embed in: **Other**

2 Size: Large (300 x 400)
