

Embed a Timetoast Timeline in PBwiki

Did you create a cool timeline on Timetoast that you want to place in your PB Wiki? You are in luck – it is a simple process! You only need the embed code and the editing screen of your wiki.

Finding the Embed Code

Once you have created the perfect avatar, you will use the embed code content on the page. This code is necessary to add your Timeline as an embedded object to your wiki. To find the embed code go to **Public Timelines**.

Click **View** to find the embed code:

Below the timeline, you will see the following row, click on **Embed/Share**:

Embed a Timetoast Timeline in PBwiki

Copy the embed code:

Share this timeline:

Direct link: <http://www.timetoast.com/timelines/6519>

Embed code: `<object width="550" height="400"><pa`

Note: you can also change the width of the timeline in the embed code, the default is 550 pixels wide. The smallest supported width is 350. The height cannot be changed and is set to 400.

Copying the Embed Code

1. Locate the embed code field on the page.
2. Click once inside the embed code field (this will select the whole text string).
3. Right-click over the highlighted text.
4. Select copy.

Pasting the Embed Code

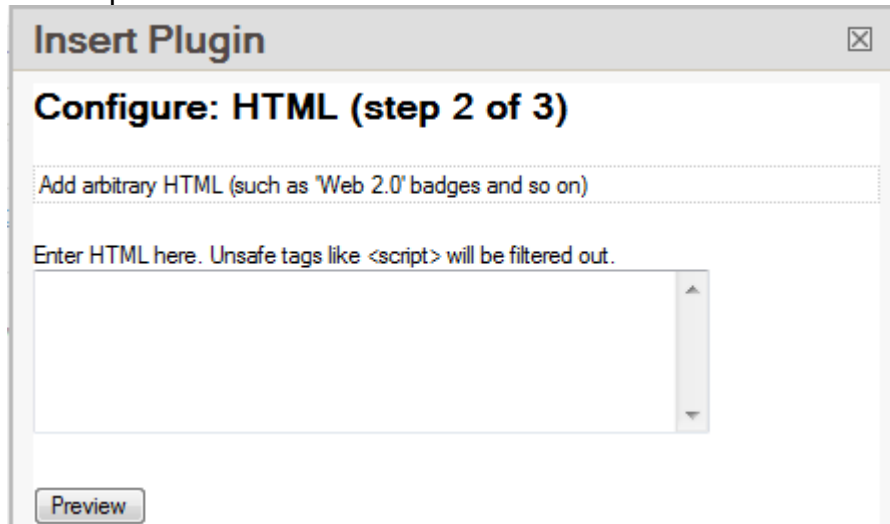

Once you have copied the code, you need to paste it onto a page of your wiki.

1. Login to PBwiki.
2. Select the wiki you want to edit.
3. Navigate to the page you want to add the timeline to.
4. Click the Edit tab.
5. Click the Insert Plugin button on the toolbar .
 - The Insert Plugin window will display.
6. Select PBWiki Magic>HTML.

Embed a Timetoast Timeline in PBwiki

7. Right-click in the text box.
8. Select paste to embed the code into the text field.

9. Click the Preview button.
10. Preview the timeline to ensure it displays correctly.
11. Click the OK button. (The timeline will be placed on the page that you selected)
12. Click Save to view your timeline.
