

Embed a YouTube Video in PBwiki

Did you find a cool YouTube video that you want to place in your PB Wiki? You are in luck – it is a simple process! You only need the embed code and the editing screen of your wiki.

Finding the Embed Code

Once you have found the perfect video, you will use the embed code content on the page. This code is necessary to add the video as an embedded object to your wiki. You can also always just link to the video URL! NOTE: not all videos will have embed code! For these videos, just copy the URL instead.

Copying the Embed Code

1. Locate the embed code field on the page (this is usually found in the upper-right corner of the screen).
2. Click once inside the embed code field (this will select the whole text string).
3. Right-click over the highlighted text.
4. Select copy.

Pasting the Embed Code

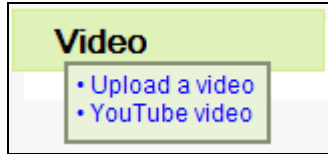

Once you have copied the code, you need to paste it onto a page of your wiki.

1. Login to PBwiki.
2. Select the wiki you want to edit.
3. Navigate to the page you want to add the video to.
4. Click the Edit tab.

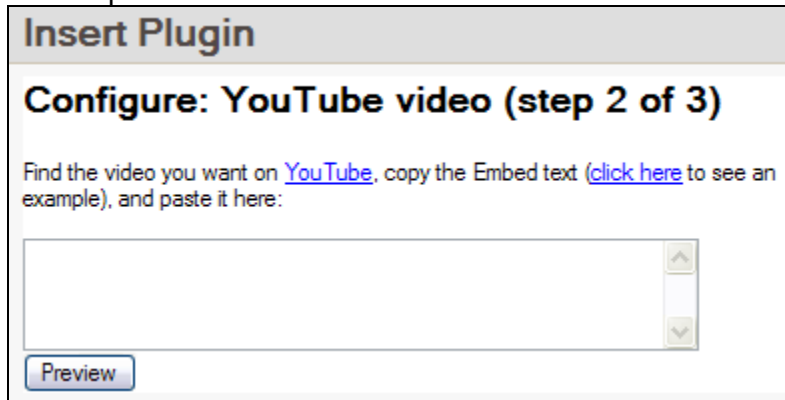

5. Click the Insert Plugin button on the toolbar .
 - The Insert Plugin window will display.

Embed a YouTube Video in PBwiki

6. Select Video>YouTube video.

7. Right-click in the text box.
8. Select paste to embed the code into the text field.

9. Click the Preview button.
10. Preview the video to ensure it displays correctly.
11. Click the OK button.
12. A placeholder for the video will appear in the wiki page.
